MSBM: Fostering Solutions

The Mona School of Business and Management (MSBM) is the premier business school in the Caribbean, producing graduates that are ready to make an impactful contribution to Caribbean development. Through its innovative research and contribution to social and economic policy formation, the MSBM is actively engaged in addressing the critical priorities of the nation and the wider Caribbean region.

The Professional Services Unit

The Professional Services Unit (PSU) was formed as a strategic response to the changing needs of business organizations and individuals in today's dynamic business landscape. Through our customized training, scheduled professional development courses and management consultancy services, the PSU has maintained an excellent track record of advancing professionals and reshaping businesses. The PSU contributes to the economic development of Jamaica and the Caribbean region by providing creative solutions for improving the effectiveness and efficiency of private and public sector organizations.

The Mona ICT Policy Centre

The Mona ICT Policy Centre is dedicated to industry policy analysis, research and teaching in the area of ICT Policy and Management. Its mission is "to become a hub for world-class training, research and consultancy in Telecommunications, ICT Policy making and Technology Management". Since inception, the Centre has led ICT Policy Dialogue in critical areas affecting the sector. The Centre delivers pioneering capacity building programmes including the globally recognized Master of Science in Telecommunications Policy and Technology Management. Through its various research projects, the Centre also builds a culture of research in ICT policy through the engagement of a number of scholars.

Centre of Excellence for IT Enabled Innovation

The Centre of Excellence (CoE) at the MSBM was established to conduct applied research and provide activist leadership in realizing ICT-enabled business innovations. The CoE's main emphasis relates to the use of FOSS - Free and Open Source Software, a phenomenon that has already dramatically changed the way that software is being developed and used across the world. The Centre of Excellence offers a range of services to SMEs and other Organizations interested in taking advantage of FOSS to enhance the effectiveness of their business operations.
